Don't be fooled by cheap copies of our press

This is a poor quality copy of our press

Don't be fooled by cheap copies of our press

We are the leading manufacture of the Multimate paper briquette press. We have found poor quality copies of our press, don't be taken in by the looks. We have sold over 500 of our presses world wide, it is the most reliable and productive press on the market.

There is only one true paper briquette maker the Multimate MK-II now available with additional accessories. Including the free mixing paddle, also available is the briquette removal tool and the wall mounting bracket.
